mFacePro1000

Standalone Face, Palm, Fingerprint and Card Reader Time Clock

mFacePro1000 is an innovative standalone biometric face reader, palm reader, fingerprint reader and built-in proximity card reader designed for Time & Attendance applications.

mFacePro1000 offers unparalleled performance by using an advanced proprietary matching algorithm which is reliable, precise and has the fastest face, palm and fingerprint matching speed

The 5" Touchscreen can vividly display detailed information, including face, palm or fingerprint image and verification result.

mFacePro1000 comes standard with TCP/IP (Wired and WiFi) and RS-232 communication ports.

ABOUT MIDEX

Midex automates the job of scheduling, tracking and managing employee time and attendance, so our clients can save time and money by working faster, smarter and more efficiently. Our clients gain control over time and attendance functions with a combination of market-leading touchless, biometric face, palm, fingerprint and card recognition methods, working in tandem with our easy-to-use, web-based software.

If your employees are paid by the hour, Midex helps make payroll easier

- Manage Employee Attendance
- Automate Payroll Processing
- Eliminate Human Error
- Automate time tracking and reconciliation
- Stop Unauthorized Overtime
- Stop time theft and "Buddy Punching"
- Reduce administrative costs

SOLUTIONS FOR ANY SIZED BUSINESS

Midex Software is scalable to fit the needs of small businesses with fewer than 25 employees - to large multi-user, multi-location enterprises that employ thousands. Our pricing is flexible and reflects what clients want and use. You only pay for what you need.

We support a variety of touchless, biometric time clocks sourced from leading global manufacturers. Time clocks include various combinations of face, palm, fingerprint and card recognition methods. Together, they provide a highly reliable, easy-to-use time and attendance solution that's backed by unmatched support – and anywhere, anytime access."
