

HP2000

Standalone Hand Reader Time Clock

The Schlage HandPunch 2000 is a Biometric Time Clock designed for Time and Attendance Software. With a HandPunch, there are no cards to create or administer, and users' credentials can't get lost, stolen or duplicated without authorization. Since the user is identified by hand geometry costly "buddy punching" is eliminated. No fingerprints or palm prints are used, and the HandPunch even works effectively in environments where the user's hand or the device may get dirty, dusty or damp.

- *Allows easy use with Midex Time Control.*
- *Supports 512 users*
- *Antimicrobial coating on the platen helps inhibit the growth of bacteria, mold and fungi, and remains active for the life of the device.*

ABOUT MIDEX SOFTWARE

Midex Software is a leading provider of online Time and Attendance software and devices. Our cloud-based software supports a variety of devices, ranging from basic, non-biometric card readers, up to more sophisticated biometric time clocks.

Midex Software modernizes the way companies manage time and attendance

- Manage Employee Attendance
- Automate Payroll Processing
- Eliminate Human Error
- Online Time and Attendance Solutions
- Stop Unauthorized Overtime
- Eliminate "Buddy Punching"
- Reduce administrative costs

SOLUTIONS FOR ANY SIZED BUSINESS

Midex Time Control delivers a modern solution to an age-old challenge – tracking and reconciling employee hours – using today's latest technologies.

With 4 cloud-based solutions to choose from, our **Time and Attendance software** scales to any sized business, from our Free Express Edition for small businesses with less than 25 employees, to our most advanced, multi-user Enterprise Edition for companies with multiple locations and thousands of employees.
