

mPalm500

Standalone Palm, Fingerprint and Card Reader Time Clock

mPalm500 is an innovative standalone biometric palm reader and fingerprint reader with built-in proximity card reader designed for Time & Attendance applications.

mPalm500 offers unparalleled performance by using an advanced proprietary matching algorithm which is reliable, precise and has the fastest fingerprint matching speed.

The 3" TFT screen can vividly display detailed information, including fingerprint image quality, and verification result.

mPalm500 comes standard with TCP/IP and RS-232 communication ports and optional WiFi. An additional USB port allows administrator to transfer data when network is unavailable.

ABOUT MIDEX

Midex automates the job of scheduling, tracking and managing employee time and attendance, so our clients can save time and money by working faster, smarter and more efficiently. Our clients gain control over time and attendance functions with a combination of market-leading touchless, biometric face, palm, fingerprint and card recognition methods, working in tandem with our easy-to-use, web-based software.

If your employees are paid by the hour, Midex helps make payroll easier

- Manage Employee Attendance
- Automate Payroll Processing
- Eliminate Human Error
- Automate time tracking and reconciliation

SOLUTIONS FOR ANY SIZED BUSINESS

Midex Software is scalable to fit the needs of small businesses with fewer than 25 employees - to large multi-user, multi-location enterprises that employ thousands. Our pricing is flexible and reflects what clients want and use. You only pay for what you need.

We support a variety of touchless, biometric time clocks sourced from leading global manufacturers. Time clocks include various combinations of face, palm, fingerprint and card recognition methods. Together, they provide a highly reliable, easy-to-use time and attendance solution that's backed by unmatched support - and anywhere, anytime access."

mPalm500

Standalone Palm, Fingerprint and Card Reader Time Clock

FEATURES

- Color 3" TFT screen with graphical interface for ease of use
- Latest BioID Anti fake fingerprint sensor
- 1-touch, 1-second user recognition
- Stores 1,000 palm templates 5,000 fingerprint templates, 10,000 cards and 100,000 transactions
- Integrated proximity card reader
- Palm, fingerprint and/or proximity cards and/or PINs
- Built-in backup battery
- Built-in bell scheduling
- Built-in RS232, Ethernet and USB ports. Optional WiFi module.
- Built-in USB port allows for manual data transfer when network is unavailable
- Audio-visual indications for acceptance and rejection of valid/invalid identifications

AVAILABLE ADD-ONS

- Built-in PoE
- Built-in WiFi

SPECIFICATIONS

Size (WxHxD)	8" x 6" x 1.75" (200mm x 153mm x 44mm)
Weight	1.3lb (0.6kg)
Package Size (WxHxD)	11.25" x 7.25" x 4.5" (285mm x 185mm x 105mm)
Package Weight	3lb (1.4kg)
Power	12V DC 1.5A
Environment	Operating Temp: 32 to 113 °F (0 to 45 °C) Operating Humidity: 20% to 80%
Capacity	Palm templates - 1,000 Fingerprint templates - 5,000 Cards - 10,000 Transactions - 100,000
Display	3" TFT LCD Screen
Communications	TCP / IP (Ethernet) WiFi (Optional) RS-232 / RS485 USB - host
